Theme of the 2025 CLAIR Forum: **Waste Reduction and Circular Economy**

Waste Reduction and Circular Economy are crucial for local governments as they help minimize environmental impact, conserve resources, create sustainable systems, and ensure the long-term well-being and prosperity of communities. With growing concerns over climate change and resource depletion, these practices have become more important than ever in recent years. In the 2025 CLAIR Forum, presented by CLAIR Sydney and UTS, we will explore the practices of waste management in local governments in Australia and Japan.

Participants will have the opportunity to engage in collaborative learning through discussions on these initiatives and the potential applications in Australia and Japan.
